

SPACE FOR YOUR TALENT.

The world is changing at an ever-faster pace. At the Johannes Kepler University Linz, we work on technologies and the ideas of tomorrow on a daily basis. At the same time, we educate over 23,000 young people to meet the demands of today's job market. In short, we are Upper Austria's largest institution for education and research. Are you interested in being a part of shaping the future at Austria's most attractive campus university? We currently have a job opening starting August 1, 2022, for a:

Senior Lecturer (must hold a Doctorate/Ph.D. degree) for a full-time, 1-year position (can be extended indefinitely) at the Institute for Physiology and Pathophysiology, Department for Physiology

Job Reference Number: 4959

The Faculty of Medicine at the Johannes Kepler University Linz (JKU) invites applications for a position as a "Senior Lecturer" at the Department of Physiology and Pathophysiology – Department of Physiology for applicants holding a Doctorate/Ph.D. The start date is August 1, 2022. The position is initially limited to one year and can be extended to become a permanent position. The successful candidate will be part of an engaged, motivated team that welcomes input and new ideas. Tasks and responsibilities are diverse and include an independent field of activity. The department focuses on cardiovascular changes in chronic renal failure, diabetes mellitus and premature aging. As part of the JKU's academic degree program in human medicine, our department covers the broad spectrum of teaching physiology along with vegetative physiology and neurophysiology. The doctorate degree program is characterized by a more application-oriented style of teaching. Located at the new Med Campus I at the JKU, the department is equipped with modern teaching facilities and research laboratories. The infrastructure to teach physiology is state-of-the-art and comprehensive, designed to support remote learning, hybrid formats, and in-person classroom instruction.

Job Duties:

- Independently teach and manage courses in the academic degree program Human Medicine in the subject area of Physiology (lectures, tutorials, electives), work collaboratively with fellow lecturers and tutors as part of a joint teaching format
- Supervise and further development digital and hybrid teaching and educational materials, particularly for the tutorial (currently based on LT software using AD-Instruments hardware)
- Organize and further develop the educational concept, module planning, and schedule in close coordination with a team at the institute
- Independently teach and supervise courses in the doctoral degree program "Medical Sciences". The successful candidate should be willing to active take part in current research projects and studies as well as co-supervise doctoral dissertations
- Prepare and conduct oral and written examinations
- Supervise Bachelor's and Master's theses
- Actively take part in tasks and responsibilities in regard to administration and organization

Your Qualifications:

- The successful candidate must hold a Doctorate/PhD (Dr.rer.nat., Dr.med., Ph.D.) in Human Medicine, Biology, or related medical/scientific/morphological subject area
- A minimum of 5 years of professional experience as a Post-Doc in an academic/scientific environment (university, a research institution such as Max Planck Society, etc)
- Teaching experience in physiology or related subject area(s)
- Experience conducting research in the field of physiology or related subject area(s) and the corresponding publications
- Didactic-pedagogical aptitude or willingness for further training in the field of medical didactics
- Strong proficiency in German and English, written and oral (level C2)

What We Offer:

- On the basis of full-time employment (40 hours/week) the minimum salary in accordance with the collective agreement is € 4,061.50 gross per month (14 x per year, CA Job Grade: B1)
- Stable employer
- Attractive campus environment with good public transportation connections
- Attractive continual educational opportunities
- State-of-the-art research infrastructure
- Dynamic research environment
- Exercise and sports classes (USI) and much more

Application Deadline: June 15, 2022.

The Johannes Kepler University wishes to increase the proportion of academic female faculty and, for this reason, especially welcomes applications by qualified women. If applicants are equally qualified, a woman will be given preference for this position. The university welcomes applications from qualified applicants with physical disabilities. These applications will be given special consideration.

How to Apply:

Prospective applicants interested in the multifaceted position are requested to electronically send an application in adherence to the stated criteria together with the requested documentation via our online portal jku.at/application or to the Johannes Kepler University Linz, Department of Human Resource Management, Altenberger Straße 69, A-4040 Linz. Please include "Job Reference Number 4959" in your application.
