

**40th Congress of the International Union of
Physiological Sciences (IUPS)
in partnership with Europhysiology
Frankfurt/Main Germany
September 11-14, 2025**

**CALL FOR PLENARY AND KEYNOTE SPEAKERS –
Deadline Extended until 29th May, 2023**

April 15th, 2023

Dear Physiologists,

We are pleased to announce that the 40th Congress of the International Union of Physiological Sciences, IUPS-2025, will be held in Frankfurt, Germany, from September 11-14, 2025, hosted by the Federation of European Physiological Societies in cooperation with Europhysiology.

IUPS-2025 will provide a perfect opportunity for physiologists from around the world to gather and share latest discoveries in all fields of modern physiology. A great opportunity, not only to understand integration of physiological principles in the science of life and how they can be translated into techniques and tools to improve health outcomes but also to meet with the international community of physiologists and - especially for the young scientists - to create and extend scientific networks.

We invite you and your colleagues to nominate speakers for the **Plenary and Keynote Lectures** at the Congress covering hot spots of physiological research. Nominations are accepted at the Congress Website (<https://www.iups2025.com/call-for-plenary-keynote-lecture-nominations/>) **until May 29th, 2023 (deadline)**. All nominations will be duly considered by the International Scientific Program Committee. Announcement of the selected Plenary Speakers and Keynotes Speakers will be made before the end of 2023.

Queries related to the preparation and submission of nominations can be directed to **Fabio Benfenati (fabio.benfenati@iit.it)** or Ulrich Pohl (**upohl@iups.org**), Co-Chairs of the ISPC of the IUPS-2025 Congress.

For your information, the call for proposals for **Symposia and Workshops** will be issued in the second half of 2023.

Sincerely yours,

Fabio Benfenati & Ulrich Pohl
Co-Chairs, ISPC of the IUPS-2021 Congress
